Shih-chen University  
Bachelor of Fashion Design

## about me

Hi I am Han Lee!  
Creative developer with 3 years of experience in frontend engineering and 2.5 years of design experience.  
Passionate about continuous learning and leveraging new technologies, Skilled in communication, understanding, and analysis, I enjoy collaborating with teams to optimize products and workflows. With my practical design experience, I ensure style accuracy and improved user experiences in frontend development.  
I actively implement task decomposition and schedule management, emphasizing the importance of testing to ensure efficient and precise project execution.

## Experience

2021 / 06 ~ Present

Front-end developer

COOLBE INFORMATION COMPANY LTD.

- Utilized front-end skills such as JavaScript, Canvas, and Adobe Animation to create interactive games for well-known beauty brand.
